## SUMMARY

First of all, I would like to introduce myself. I study at the NULP (5th course, Faculty of Computer Sciences). My main interest is in Web design and Web development. Nowadays I improve my skills in PHP, AJAX, SQL etc. In addition, I started working as a freelancer in 2013. As for OOP, I know just the basics of it, because my previous works were completed with procedural PHP.

I can normally collaborate with the other workers, because I do not have any problems in teamwork. Furthermore, many of my web-projects were divided into few parts – my part and my partner's parts.

## COMPUTER SKILLS

### Languages

- PHP (procedural; OOP basics), SQL (+ PDO), JavaScript (+ AJAX, jQuery), HTML/HTML5, CSS.

### Databases

- Relational (MySQL).

### Other

- SVN.
